AWARDS

2021 - 2022

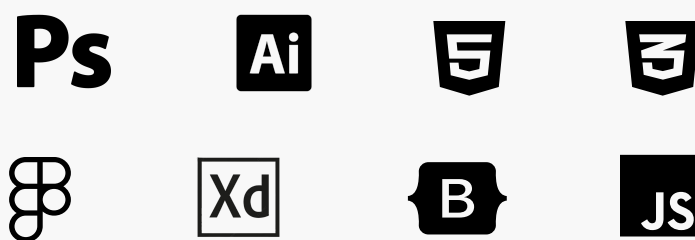

First prize in the innovation startup competition 2021 at UEF for the project "Bags made from coffee grounds".

The Second prize Idea2Business International Competition 2021.

Top 20 in Momo Competition - Product Management.

TOOL SKILL

During my works, I studied and completed the duties, during the process I honed the following Tool's Skills:

PROFILE

Hi, I'm The Hoang Tran, you may be wondering what my name means, it's simply 5 acronyms: Fulfilled, Enjoyable, Respectful, Disciplinary, and last Simple. Those are the 5 criteria for me to work on and apply it to design my dream life.

GOALS

- Share values to gain values:
- A mentor guide me the right map
 - An environment to be dedicated and grown
 - Colleagues and good relationships

EDUCATION

UNIVERSITY OF ECONOMIC AND FINANCE

2020 - 2024

I am currently finishing my university curriculum and am looking for an internship opportunity.

I learned a lot here, not just about specialized knowledge but also about life lessons. Soft skills are what I engage the most; through the topics, I develop critical thinking, problem solving, and, most significantly, communication skills.

FPT ARENA MULTIMEDIA

2021 - 2022

I recently finished two-term curriculum here, and I spend the most of my time in the domain of UI Design, especially for the Website field. Beside that, I have experience with coding because all projects are built after having Sketch and Design.

In addition, for the past time, I have been self-studying and arming myself with knowledge regarding UX Design.

PROJECTS

PRODUCT EVANGELIST CAMP

Jan 2023

The PEC Camp is a place where all members camp together, sharing valuable experiences during the time of making products.

Then we were divided into groups to build product, we just had 5 day to run the Sprint and here is my team's Use Case.

PRODUCT MANAGEMENT CHALLENGE

Jun - July/2022

The Momo's competition occurred in one month, that was so interesting and insane.

Although i failed, I learnt a lot of lessons which initiated my journey in Product field.

PRODUCT MANAGEMENT TRAINEE

Otc - Dec/2022

The project was completed within 7 days to submit to Zalo in the application contest for the position of PM Trainee, but I still failed.

After that I spent a month correcting my mistakes and accomplishing this Case Study.

USER INTERFACE DESIGN

Apr - Sep/2022

Two recent projects that I completed, one Individual Project and one Team Project. All these projects are conceptualized then sketched, then designed and finally built.
